RADIO SPOT ANNOUNCEMENTS FOR NATIONAL 4-H CLUB WEEK---
MARCH 4 TO 12, 1950

If you are between the ages of 10 and 21, you, too, can be a 4-H Club member. Why not join during National 4-H Club Week, March 4 to 12? Your county agent or State agricultural college can give you complete details.

This is National 4-H Club Week--special days designed to increase your interest in 4-H by making it possible for you to see 4-H boys and girls at work. Why not call on your county extension agent? He'll be glad to take you to your first 4-H Club meeting.

This is National 4-H Club Week. If you are a business man or woman interested in the growth of your community find out what the 4-H Clubs in your neighborhood are doing. They're building good, responsible citizens of tomorrow. Your county agent or State agricultural college will be glad to tell you more about 4-H activities.

4-H Club members in our community are celebrating National 4-H Club Week, March 4 to 12. During this time, they are making a special effort to interest you in the farm, home, and community projects which help each 4-H'er to learn by actually doing. If you are between the ages of 10 and 21, now is the time of year to get into 4-H--just when the plans are being made. If you are older, the youngsters still need lots of help and lots of friends. Your county extension office, or State extension headquarters at the State agricultural college, can give you complete details.
